Paul Wieler, +41 52 646 2200, paul.wieler@schoettli.com (EMEA)
Daniel Michel, +1 909 592 3663, daniel.michel@schoettli.com (N. America)

Our NEW service:
**On-Site Mold-Audit and
Mold-Inspection by a
Schöttli Mold Specialist**

A **typical On-Site Audit** or Inspection contains the following:

- *Recording of all running Schöttli Molds On-Site – number of cycles and general condition of mold*
- *Disassembly of one or more Molds supported by you*
- *Evaluating and Rating of the actual mold component conditions*
- *Cleaning Mold and Parts*
- *Replacement of Parts if necessary*
- *Assembly of Mold*
- *Assemble Mold into IMM*
- *Run the Mold on IMM*

Typical duration: 3-5 days

All the work is being documented in a **Report** that will be sent to you latest 2 weeks after the Audit. Typically, you find the following information in a report:

- *Brief description of analyzed Mold*
- *Complete summary of Findings*
- *Illustrated findings during Disassembly*
- *Description of carried-out work*
- *Rating of produced parts during the test*
- *Schöttli's Recommendations for immediate, medium and longterm maintenance*
- *An associated cost evaluation for the advised corrective actions and improvement opportunities*
